Personal Projects

Pizza Delivery Paraplegic | *GdScript, Godot 3 Engine*

Solo Side Project   12 July 2021 - 12 October 2021

   Pizza Delivery Paraplegic is a short, 2D platformer where the player traverses the map with a grappling hook to deliver pizzas. Inspired by *Getting Over It with Bennett Foddy*.

Personal Website | *HTML, CSS*

Solo Side Project   28 August 2021 - Current

   A small personal website documenting the projects I made and some information about me.

Calculator | *HTML, CSS, Javascript*

Solo Side Project   21 August 2021 - 23 August 23 2022

   A basic calculator I made as part of The Odin Project Foundations' Curriculum.

Familiar languages: Python, Visual Basic 6, Java, HTML, CSS, Javascript
